

A close-up, low-angle shot of the front grille of a dark-colored Lexus SUV. The grille features a prominent, intricate mesh pattern. The Lexus logo, a stylized 'L' inside an oval, is positioned on the right side of the grille. Below the grille, a license plate is visible with the text 'RX 350'. The background shows a bright, cloudy sky, and the overall lighting is dramatic, highlighting the metallic textures of the car.

EXPERIENCE THE — EXCEPTIONAL

At Lexus, we believe vehicles should reflect the people who drive them, built for their passions and needs. For us, luxury is more than opulence and status. It's a truly exceptional, effortless experience.

Welcome to the Lexus Corporate Program.
Prepare to experience amazing.

REIMAGINE THE — LUXURY AUTOMOTIVE

From the first design sketches to the last stitch, Lexus delivers a personal experience unlike any other. This experience is reflected in our Corporate Program, which offers exclusive benefits across a selected range of Lexus vehicles.

The story began in 1983, when a team of engineers, designers and technicians were assigned a project to reimagine luxury automobiles. Driven by their innovative ambition, they rewrote the rule book on luxury and performance.

Their vision? Uncompromising quality and craftsmanship, coupled with industry-leading customer service. A vision that would go on to influence every element of Lexus to the current day.

With every decision we make, car we create and service we provide, we promise a level of attention and consideration to all customers. And it's these unwavering standards that make Lexus the benchmark for customer satisfaction in the automotive industry.

Customer care is at the heart of our brand. Because we recognise that every customer's needs are different, we work to provide personalised solutions, exceeding expectations and delivering a truly unforgettable luxurious experience to each individual customer.

REDESIGNING — CRAFT

Our 'Yet' philosophy inspires us to look beyond the conventional; diverging our thinking to fuse seemingly incompatible goals with unique results. We work to harmonise contradictory elements such as 'high performance yet high fuel efficiency', or 'spacious yet aerodynamic design' - merging the impossible to create visionary, progressive design and technology, delivering new experiences every time.

In addition, unique Lexus styling is born of our L-finesse design language, a fine balance of 'Leading-edge' and 'finesse'. This means every Lexus is not only captivating and luxurious, but also highly refined. We go that step further to ensure every subtle detail has been considered, down to the last stitch. Finally, we measure every new Lexus model against a set of internal standards covering design, performance, specifications and equipment, delivering cutting-edge technology wrapped in stunning luxury each time.

LEXUS CORPORATE — PROGRAM

Our culture is based on a simple phrase:
'Experience Amazing.'

For us, it represents a promise that extends far beyond the experience of driving a superior vehicle. It's encapsulated in every element of ownership.

Our Corporate Program delivers on this promise, offering luxury and performance combined with unique privileges, experiences and membership rewards. A select range of new Lexus vehicles are available as part of the program, including luxury sedans, coupes and SUVs¹. As an employee of an eligible company, you can now experience amazing.

Corporate Program Benefits include:

- Preferential Corporate Pricing²
- 3 years of complimentary servicing in accordance with the Normal Service Schedule³
- Reduced Dealer Delivery fee of \$1,495 (ex GST)
- Competitive total cost of ownership

For more information on Terms and Conditions, please visit the Lexus Corporate Portal:

LEXUS — ELECTRIFIED

EVOLVING TO MEET THE NEEDS OF TODAY

The Lexus Electrified lineup includes Battery Electric, Plug-in Hybrid and Hybrid vehicles, so you can choose an electrified drive that suits you.

THE POWER OF H

The Lexus history of hybrid innovation goes back further than any other luxury automaker. It began with the development of an approach we call 'The Power of H'. This approach means supplementing the power of an advanced petrol engine with electric energy, for the perfect blend of fuel efficiency, instantaneous power and refined luxury.

THE HYBRID RANGE

Today the Lexus Hybrid range includes Hybrid and Plug-in Hybrid Electric Vehicles (PHEV). Both use an electric motor and a petrol engine, but the PHEV battery can be recharged either through the Hybrid system or by plugging in to an electricity supply.

GOING — ALL-ELECTRIC

Battery Electric Vehicles (BEV) use an electric motor powered by a high-capacity battery. Throughout your entire drive – starting off, accelerating, cruising, braking or at rest – the electric motor is used to power the vehicle. Electric vehicles have to be recharged by plugging in to a charging station – at home or on the road.

BORN FROM — FUJI SPEEDWAY

Input from test drivers is a vital part of every new Lexus model development. In fact, nothing goes to market without the complete test drive approval of Akio Toyoda, Lexus Master Driver and former Lexus CEO.

Taking the wheel at Japan's Fuji Speedway, host of the 2007 and 2008 Grand Prix, Akio Toyoda gets in the driver's seat of each new model, pushing it to the limit to see if it's worthy of a Lexus badge. This includes our 'built to deliver' F Series and F Sport models, named after Fuji Speedway.

Offering finely tuned engines, aggressively detailed handling, race-bred transmissions and, of course, significantly upgraded brakes, our F Series delivers unprecedented performance and exhilarating emotion that connects the driver to the machine.

Developed by our Lexus Vehicle Performance Development Division, specialising in racing activities, the result is a sensational road-hugging responsiveness, featuring an impressive interior, encased in stunning design.

You'll find the exhilaration of F Sport high-performance packages available across a select range of Lexus models.

DRIVE — AMAZING

Life isn't simply about where you happen to be going,
but how you choose to get there.

The car that takes you on life's journey should
be a reflection of you and your style.
